Stand-Up Notes 11/8/22

- What worked on in the past week
  - Search Routes
- Next week: fix database, …?
  - Transaction table
    - Song
    - Date
    - Username
- Are songs and tables doing the same things
  - Yes
  - Do we need to keep both, or merge them together
-
- Next Lab:
  - Table correlation
- Trend Table
  - Trend by month
  - Figure out how to incorporate tables
  - Work with dummy data and json
- Artist Page
  - An artist to see where they are popular
  - Each page is designated for a specific artist

All of our UI needs to be dynamic
Keep repositories in sync
